- Communication skills

**PROJECT:****Solar power bank:**

It is a device in which panels convert solar energy into electrical energy to recharge the Power Bank.

**Concluding:**

A solar power bank works by converting sunlight into electricity using a small solar panel, storing that electricity in a rechargeable battery, and then providing a regulated power output through a USB port to charge electronic devices like smartphones, when needed; essentially, it functions as a portable battery that charges itself directly from the sun using photovoltaic technology.

**PERSONAL DETAILS:**

Father Name	:	T.DASHARATHAM
